

April 2013

Dear Parent/Guardian and Staff Members:

In 1999 the Illinois General Assembly passed laws requiring that public schools notify parents/guardians and school employees at least 48 hours prior to any pesticide applications on school property. The term "pesticide" includes insecticides, herbicides, rodenticides, and fungicides. The notification requirement extends to both indoor and outdoor pesticide applications. Excluded from the notification requirement are antimicrobial agents (such as disinfectants, sanitizers, or deodorizers), insecticide baits, and rodenticide baits.

Buffalo Grove High School has therefore established a registry of people who wish to be notified. To be included in this registry, please complete the form below and submit it to the Buildings and Grounds Supervisor at your school. Any other questions you may have regarding the District's pest management practices may also be directed to Brian Lichtenberger at 847 / 718-7619

School Pesticide Application Notification Program Registry

Please notify me, at least 48 hours in advance, when any pesticide applications will occur on school property.
