Buffalo Grove High School
2017-2018 Fourth Quarter

A Letter from Principal Wardle

Buffalo Grove Parents,

As a terrific year begins to wrap up, I am excited to let you know about the many upcoming build-

ing improvement projects scheduled to begin this spring. Most of the construction will be completed by the opening of the 2018/19 school year, with a few projects targeting a fall 2018 completion date.

Fine Arts New Wing and Renovation

A new, 8600-square-foot Fine Arts Wing will be built on the south side of theater. This new wing will house our Band and Orchestra rooms, 2 offices, 6 practice rooms, instrument storage, and a percussion room. Easy access to the theater stage will be incorporated into this project. The current Choir area will receive upgrades, renovations, and increased space and practice rooms.

Fine Arts and Athletic Multi-Purpose Room

Once the new fine arts wing is complete, the current Band and Orchestra rooms will be remodeled into a single, large multi-functional area.

Library remodel

The Library remodel will turn a current computer lab into a mobile lab, add new classroom and student small-group collaboration spaces, update the tech support area, and provide greater student intervention through peer tutoring and teaching support.

Fieldhouse Flooring

The 20+ year old fieldhouse floor will be entirely replaced with a stronger, safer, and more durable floor.

Manufacturing Pathway

The manufacturing lab will expand its physical footprint to add more industry-standard equipment, robotics, and software. This will add to our dual credit options for students.

Health Careers Pathway

To support our new Health Careers Pathway, we will be converting existing space into a dual classroom/hospital lab complete with a model hospital room for training and CNA certifications, allowing for dual credit coursework in the second year of the pathway.

Grant Blaney Stadium

A new facility on the north side of the home bleachers will provide flush toilets and a ticket booth. Renovations will be done to existing storage, and new storage will be added.

Fight On BISON!!!!
